Installation of SSQV Return Kit

- Loosen the C-ring of the SSQV assembly. Rotate the blow-off valve on the blow-off adapter 180°. (Diagram Dia.1, Dia.4)

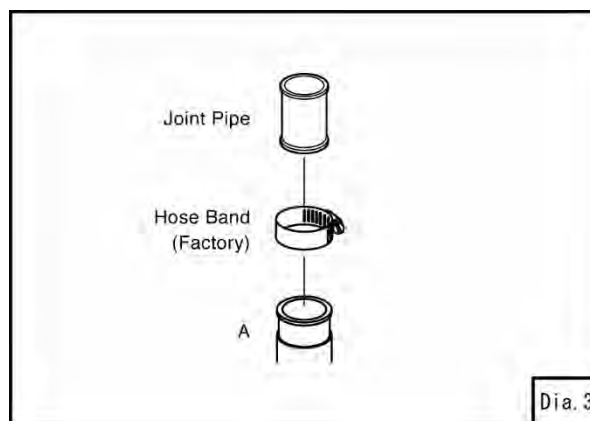

NOTE

The C-ring must be loosened before rotating the valve. Failure to do so may damage the valve.

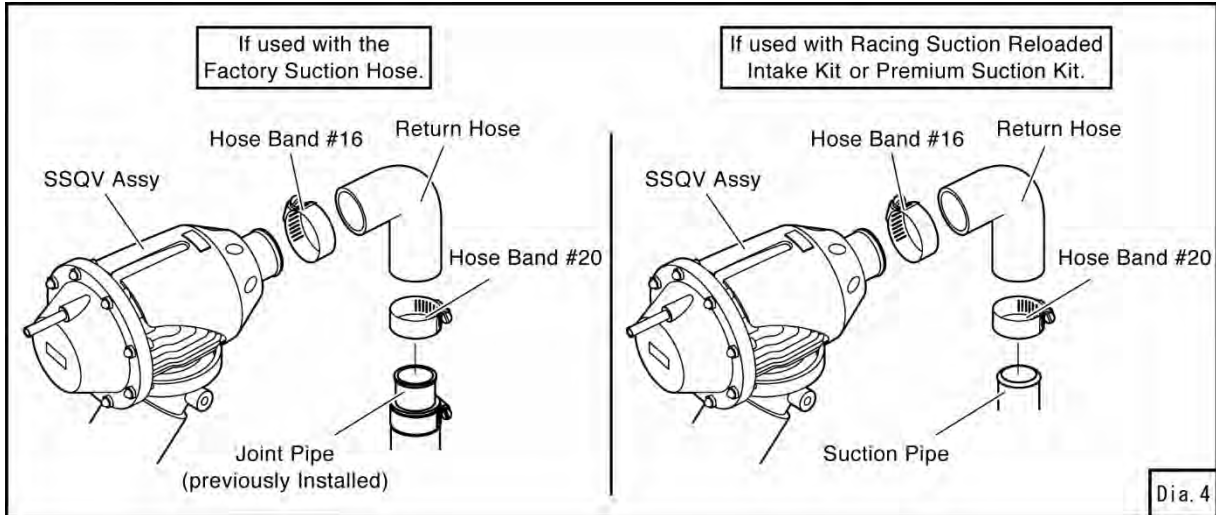

- Install the Recirculation Fitting to the SSQV assembly referring to the SSQV installation manual.
- Remove the SSQV's plug and rubber cap that were installed to "A" when installing the SSQV kit. (Diagram Dia.2)

- If the factory suction hose is used, install the joint pipe provided with this kit to "A" using the factory hose band. (Diagram Dia.2, Dia.3)

5. Install the provided return hose. (Diagram Dia.4, Dia.6)

NOTE

If the return hose does not fit properly, it may be necessary to cut the 35mm hose end to the appropriate length.
